# Engagement Workshops

## Agenda

**Purpose:** To engage and update conservation market stakeholders on activities and progress of the EcoServices Network (ESN).

**Objectives:**

1. Provide partners and stakeholders with an update on ESN projects and activities.
2. Share information and increase understanding of conservation markets including information on user needs assessment, green financing opportunities and addressing property rights challenges.
3. Provide a learning opportunity for engaging indigenous communities.
4. Support capacity- building for individuals and organizations interested in the design and implementation of demonstration and pilot projects that will help advance conservation markets in Alberta.
5. Gather feedback on and input into EcoServices Network projects.
